Rahil Huseynov

Summary

As a passionate front-end developer, I specialize in creating engaging and responsive user interfaces using modern web technologies. With a strong foundation in HTML, CSS, SCSS, JavaScript, and TypeScript, I build dynamic and scalable applications with frameworks like React.js and backend solutions using NestJS. I am committed to following key design principles that prioritize user experience, while consistently tackling technical challenges with innovative solutions. Eager to work in fast-paced, dynamic environments, I remain open to learning new technologies and embracing industry advancements. With a collaborative mindset and a dedication to achieving goals, I thrive in teamwork-oriented settings.

Work Experience

Web Developer(intern)

🏢 English Language and Literature

📅 Jan 2025 - Jul 2025

As a Web Development SEO Specialist in English Language and Literature, my focus is on enhancing the digital presence and search engine visibility of educational content. My role includes:

- Optimizing website structure and content for improved SEO performance.
- Implementing best practices for on-page and off-page SEO strategies.
- Collaborating with content creators to develop engaging, search-friendly content.
- Analyzing website performance and user engagement to refine SEO tactics.
- Designing and building responsive, SEO-friendly websites using WordPress and Elementor.
- Staying updated on search engine algorithm changes to maintain competitive rankings.

Front-End Developer(intern)

🏢 Azerbaijan Architecture and Construction University

📅 Jan 2025 - Jul 2025

As a Frontend Developer, I specialize in creating responsive, user-friendly, and interactive web applications. My key responsibilities include:

- Developing responsive and accessible interfaces using HTML, CSS, and SCSS.
- Building dynamic and interactive components with JavaScript, TypeScript, and React.
- Managing application state efficiently using Redux Toolkit (RTK), the official, recommended way to use Redux.
- Writing modular and optimized styles using the SCSS preprocessor.
- Implementing form validation, animations, and DOM manipulations to enhance user experience.
- Designing mobile-friendly layouts using CSS Grid, Flexbox, and Media Queries.
- Creating modern and consistent UI designs using libraries such as Material UI (MUI), Tailwind CSS, and other component-based frameworks.
- Implementing i18n (internationalization) to support multi-language interfaces and improve global accessibility.
- Managing version control and team collaboration with Git and GitHub.
- Containerizing and deploying frontend applications using Docker and Podman for streamlined development and delivery.

Certificates

STEP IT / Front-end Developer

Completed a comprehensive front-end development program covering HTML, CSS, JavaScript, and React. Gained hands-on experience with real-world projects, responsive design, and UI/UX principles. Strengthened problem-solving and teamwork skills.

META / Front-End Developer Professional Cer tific ate

🔗 Certificate Link

Completed a professional front-end development program focused on HTML, CSS, JavaScript, and React. Gained hands-on experience with responsive design, UI/UX principles, version control Git, and real-world projects.
